
Top: experimental and identified FRFs. Bottom: experimental FRF and complex FRF residual.
Residual computed at identical frequencies; dB referenced to recorded output / motor-command unit.
Experimental FRF estimate (Welch H1)
SRIVC model FRF
Complex FRF residual |H exp -H model|
$u_1 \to y_1$
$u_3 \to y_2$
$u_4 \to y_4$
FRF magnitude (dB)
FRF / residual magnitude (dB)
